IMPORT STATISTICS

William C. George

note

REPORT No. FT 120

General imports include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.

(b) Warehouse entries:

(1) Commodities entered into bonded storage warehouses.

(2) Imported ores and crude metals such as copper, lead, and zinc entered into bonded smelting and refining warehouses are included with warehouse entries.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the foreword to the 1944 edition of Foreign Commerce and Navigation of the United States. Copies of the foreword are obtainable upon request.

Subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. See Schedule A, Statistical Classification of Imports Into the United States, for complete subgroup descriptions and Schedule C, Code Classification of Countries (published as a part of Schedule A), for unabbreviated country names. A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation is also available.

The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country.

Shipping weight, previously shown in this report, was discontinued effective with the statistics for the month of June, 1947.

Report No. FT 120 for the calendar year 1947 is issued in two sections; one section for general imports, the other section for imports for consumption. Effective with the statistics for the month of January 1948, United States Imports for Consumption will be shown in Report FT 120.

United States General Imports of Merchandise.

REPORT No. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.

(b) Warehouse withdrawals for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, metals, such as copper, lead, and zinc, withdrawn from bonded smelting and refining warehouses for consumption or for exportation, and commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawal for exportation are included with warehouse withdrawals for consumption.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the foreword to the 1941 edition of Foreign Commerce and Navigation of the United States. Copies of the foreword are obtainable upon request.

Subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. See Schedule A, Statistical Classification of Imports Into the United States, for complete subgroup descriptions and Schedule C, Code Classification of Countries (published as a part of Schedule A), for unabbreviated country names. A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation is also available.

The omission of a subgroup classification or country name from this report indicates no transactions for that subgroup or country.

Report No. FT 120 for the calendar year 1947 is issued in two sections; one section for general imports, the other section for imports for consumption. Effective with the statistics for the month of January 1948, United States Imports for Consumption will be shown in Report FT 120.
